

**"Buckle-Up Get in and Go for It!"**

**2006-2007 FCCLA**

**Child Care Service/Learning Center Theme  
Proficiency Event for Individuals or Teams**

Riding in cars can be a great experience, as well as a traumatic one. Either way it should all be experienced with safety. Children need to be taught the proper way to ride in vehicles and how to behave, buckle up, and much more for their safety.

In a creative display, participants must show how they have taught children ages 3-5 proper safety precautions while in vehicles. Refer to the Proficiency manual for complete requirements for this project.
